主题: Re: Inspection report for WPA0063

[Security Level 2]

Dear Ms.Wang, Mr Ji, Ms.Yang,

We are pleased to hear such good news that all towers were delivered by last weekend. DA001&DA003A towers are very essential to project installation excution, and also Toyo's most concern regarding fabrication quality & schedule.

We'd like to appreciate for Ms Wang Huan's great effort during the last 3 months for Daikin CM2 project.

Also looking forward Jorson's continuous support in future.

Best Regards,

Qian Liang Inspection Coordinator
